

THE UTILITY[®] BIKE.

benno[®]

"At Benno Bikes we are driven to create bikes that provide true urban mobility and versatility. We are just as enthusiastic about running errands as other bike companies are about winning races."

Benno Baenziger, Founder/CEO

The pilots of Air Zermatt have chosen Benno Bikes to build a special edition Benno Boost E, our most capable electric utility bike, with trademarked Etility® Design. The Boost's agility, load-carrying capacity and multiple set-up options help speed the pilots to the hangars and to move equipment and team members around the base and the car-free town of Zermatt.

The Air Zermatt rescue team is legendary, making over 1700 rescues a year, using specially-equipped rescue helicopters to pull stranded mountaineers off the Matterhorn and surrounding peaks in the Swiss Alps.

etility
DESIGN®

WHAT IS ETILITY?

A typical ebike offers a nice ride, but not much utility. A cargo ebike carries heavy loads, but can be difficult to maneuver. We believe what people really need is an everyday ebike engineered with the perfect blend of ride dynamics, cargo capacity and good looks. Awesome agility with the ability to carry exactly what you need. We call it Etility® Design and it's at the heart of every Benno ebike. **Bennobikes.com**

PERFECT BLEND.

MAX GROSS WEIGHT
440 LB / 200 KG
(RIDER / CARGO / BIKE)

MAX GROSS WEIGHT 440 LB / 200 KG
(RIDER / CARGO / BIKE)

LOADING TIPS FOR AN OPTIMAL RIDE

BENNO BOOST E

DO NOT EXCEED MAX GROSS WEIGHT OF 440 LB / 200 KG (RIDER + CARGO + BIKE) BE AWARE, WHEN ADDED TOGETHER, THE INDIVIDUAL LOAD RATINGS SHOWN FOR THE RIDER AND CARGO PLUS THE ACTUAL WEIGHT OF THE BIKE WILL EXCEED MAX GROSS WEIGHT. THEREFORE, WHILE YOU MAY MAXIMIZE SELECTED INDIVIDUAL LOAD RATINGS, THE SUM OF ALL LOADS CANNOT EXCEED THE MAX GROSS WEIGHT (RIDER + CARGO + BIKE \leq 440 LB / 200 KG).

WARNING: RIDE WITHIN YOUR LIMITS. ADDING LOAD INCREASES RIDING DIFFICULTY. SECURE LOAD FIRMLY. ENSURE THAT NO PARTS OF THE LOAD, BODY OR CLOTHING COME NEAR MOVING PARTS ON THE BICYCLE, SUCH AS CHAIN, SPOKES, TIRES OR BRAKES.

HOLD HANDLEBAR FIRMLY WHILE RIDING WITH LOAD. MAINTAIN PROPER TIRE PRESSURE AS INDICATED ON TIRES.

Max load 45lbs/20kg

Utility Front Tray

46cm x 32cm x 14cm (WxLxH)

A6011 · Black

A6012 · Red

BOOST E. THE ETILITY BIKE.

The Boost E, with Etility® Design, is many bikes in one, combining brilliant capability with surprising maneuverability. It's compatible with a wide range of accessories and can handle more than twice the load of a typical bike.

The commuter bike. Ride to work, tackle errands or just ride for weekend fun.

The mom bike. Safely transport a small child in a baby seat and plenty of groceries.

The dad bike. Carry a small child in a baby seat, a kid on the back and all their goodies.

The large family bike. Ride with two kids and all their stuff or other loads.

The twin bike. Double down with two small children in baby seats and extra cargo.

The adventure bike. Tour the world, go camping or explore your city.

The work horse. Haul random, heavy and oversized loads with ease.

The beach bike. Bring your child, surfboard and cooler to the beach.
